Kirk,

Just to clarify, you are no longer opposed? Do you now wish to support the request or abstain?

Kirk,

I am under the impression that the applicant, Chuck, has met with you and/or your team regarding the proposal. He has indicated that there may have been some misunderstanding regarding the intent of the business. I wanted to follow back with you to see if you are still opposed to the Conditional Use Permit request.

Thanks,  
Randy

Dear Randy & City of Peoria,

I currently own a small insurance business in Peoria & was notified of a possible new business opening in my office condo. I do oppose this business being located right next door to me. I have client meetings daily & feel this business will create a noise & smell irritant. The shared wall is thin & feel this would be a huge problem for my business. Thanks for your information today.
