

AMENDMENT ONE TO THE ORDERING DOCUMENT

This Agreement Amendment One (this “**Amendment One**”) amends the Schedule 1 to the Software License and Services Agreement dated 19-MAY-1998, and all amendments and addenda thereto (the “**Schedule**”) between **City of Peoria (“You”)** and Peoplesoft USA, Inc. (“**Oracle**”).

The parties agree to amend the Schedule as follows:

A. MODIFICATIONS

- 1. On Page 2, Section 2 Expansion of Licensed Use, delete the third paragraph and replace with the following:

“If Licensee exceeds its licensed quantity, Licensee must order the additional licenses (and first-year of Software License Update & Support) at the appropriate license and support fees specified on the attached Expansion Exhibit A.

The number of additional licenses to be ordered shall be equal to the actual number of Annual Budget as the order date less the total number of licensed quantity (under this Schedule or other Schedules or orders) rounded up to the next increment on the attached Expansion Exhibit A.

Oracle has no delivery obligation for licenses ordered pursuant to this section.

The license definitions and program specific terms applicable to this Schedule will apply to licenses ordered pursuant to this section.

If Licensee wishes to expand licensed use to additional countries, such expansion shall require a mutually executed ordering document. Under no circumstance is a PeopleSoft Account Manager authorized to expand licensed use.

If Licensee has previously terminated Software License Update & Support (“SULS”), or SULS has expired for the entire license set, then Licensee may order additional licenses required under this provision without the applicable SULS fees.”

- 2. Attached the following as Exhibit A:

Exhibit A

License Type	License Fee per Increment	Support per Increment	Increment Quantity
Annual Budget Perpetual	\$40,570.00	\$8,925.40	\$8,800,000

Subject to the modifications herein, the ordering document shall remain in full force and effect.

The Effective Date of this Amendment is 02-OCT-2023. (to be completed by Oracle)
