Citizen Participation Report/Meeting

Neighborhood Meeting

A neighborhood meeting was held on June 16th 2025 at 6pm at the West Wing Community Center (see attached notification details).

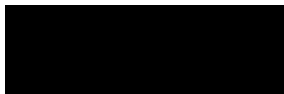

The meeting started shortly after 6pm, and was attended by two neighbors in addition to members of the City of Peoria planning department.

The conversation was cordial, and the discussion centered around the location and aesthetics of the proposed Old Style Watertank site, in addition to a range of other WCF related conversation.

I think the takeaway is that the color options for the proposed site will be very important, and will contribute to alleviating neighbors concerns. TowerCom/T-Mobile is completely flexible on colors, and will comply with the neighbors/HOA wishes color wise, and will work with the Watertank manufacturer to ensure the colors are the most appropriate to mitigate the presence of the proposed site.

Please let me know if you require any additional information.

Sincerely,

Declan Murphy for TowerCom/T-Mobile
